

Faculty Expertise Guide

The **Faculty Expertise Guide** is a searchable database via the web for faculty area expertise information. The system is designed to provide an information resource for scholars, students, and the media.

Using the **Faculty Expertise Guide** allows us to:

- Require users to log in before being able to access online publications.
- Validate user accounts against the McCombs School of Business Server securely using UT-EID authentication.
- Provide a comprehensive guide to the research and expertise of the McCombs faculty through an easy to use web interface.
- Log system usage and other activity.
