

# Graduation

Students in the BSBME/MSE Integrated Program have both their BSBME and MSE degrees conferred at the same time after completion of both degrees.

## BSBME Graduation

**You may be able to walk with your senior class in the spring of your fourth year.** In 2021, students did this by submitting an [intent to graduate form](#) which was then rejected but allowed participation in the Undergraduate ceremony before final completion of the BSBME/MSE program.

## MSE Graduation

**During your final semester in the program** submit the [application to graduate](#) with your MSE degree.

**If you are pursuing an MSE with Thesis**, submit your thesis to the Texas Digital Library and submit final paperwork to the Graduate School by the [submission deadline](#) for your final semester.

## Commencement

Policies regarding participation in both undergraduate and graduate commencement ceremonies will be shared each semester.
