

# Dualboot Classroom control policies

These policies specifically apply to Dual-boot classroom machines. It does not effect single-boot machines.

If the computer is in the Mac operating system, it will perform the following way:

Day	On	Off	Absolute Manage command
Monday	7am	11:30pm	-
Tuesday	7am	11:30pm	-
Wednesday	7am	-	boot to Windows for updates
Thursday	7am	-	boot to Windows for updates
Friday	7am	11:30pm	-
Saturday	-	11:30pm	-
Sunday	-	11:30pm	-

The code that performs this power management functions:

```
pmset repeat shutdown MTFsu 23:30:00 wakeorpoweron MTWRF 07:00:00 && pmset -g sched
```

If the computer is in the Windows operating system, it will restart at 6:30am to the Mac OS if it is in the Dualboot Active Directory User group. This policy is controlled by Group Policy.
