

CMB 1.109 USB MP3 recorders

Insert your USB drive into the USB slot.

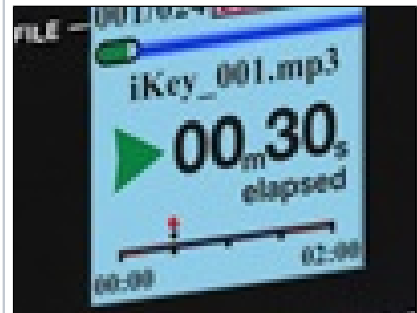

Push the **Red** record button on the USB recorder. You should see a paused icon appear on the tiny screen with '0:00'.

Push the **Red** record button again to begin your recording.

If the numbers are increasing, you are recording.

Push the Stop button to stop your recording.

When you are done, gently pull your USB drive from the recorder.
