

# Opening other users Inboxes/Mailboxes using OWA 2010

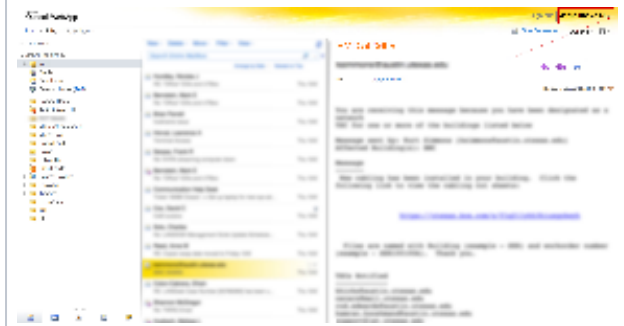

## Opening another exchange mailbox using Outlook Web Access 2010

If you needs access to someone else mailbox here are easy steps showing how to achieve this task.

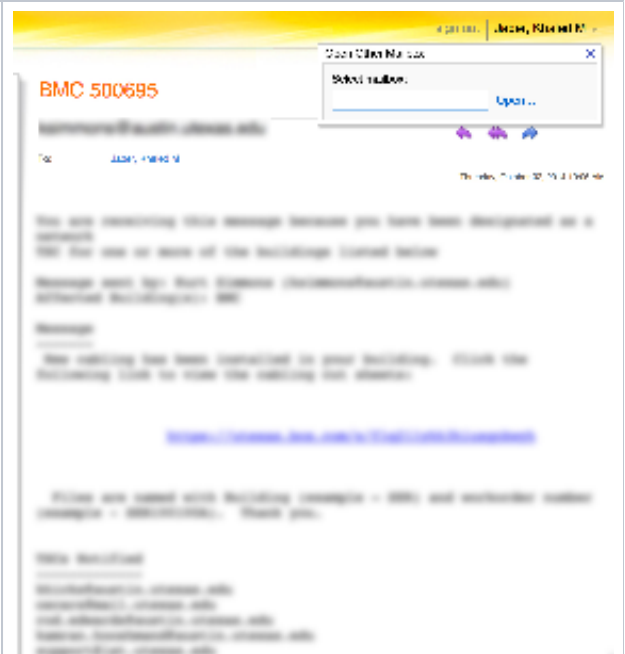

Login to OWA using your own mailbox email address and password

<https://wmail.austin.utexas.edu/owa>

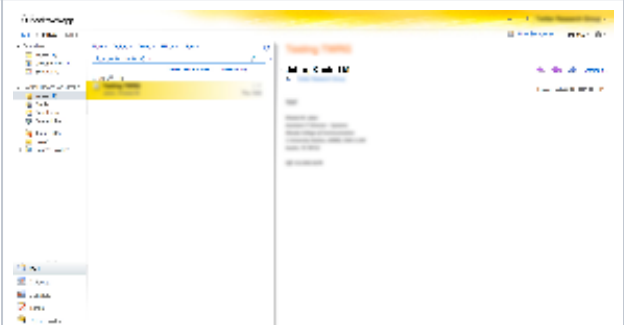

Click on the down arrow to the left of your mailbox name.

Under "Select Mailbox", enter the name of the mailbox you wish to open and click open.

Your other mailbox is now open and ready for use!

To revert to your original mailbox, just follow the previously outlined steps!
