

# Sponsored Student Organizations

Sponsored student organizations are student organizations that have a designated and acknowledged partnership with a university academic or administrative unit. Sponsorship by academic or administrative units requires support, endorsement, supervision, and the assumption of responsibility for the actions and activities of the sponsored student organization. Sponsorship may not be extended to student organizations involved in political or religious activities or in projects for private gain. Rules regarding sponsorship are found in section 6-101(10) of The University of Texas at Austin [Institutional Rules on Student Services and Activities](#).
