

Green Labs Wiki at The University of Texas Home

We've Moved!

Please check out our new site:

<https://utgreenlabs.wixsite.com/utgreenlabs>

We serve as a resource to help you run a more eco-friendly lab. Our goal is to build a community among labs at UT and to work together towards achieving sustainable goals, such as using less hazardous materials in terms of toxicity and quantity, use water and energy efficient equipment, recycle and reuse materials, use equipment in energy and water efficient ways, and control inventory.
