Software

The University of Texas makes several software available to students and staff at no or reduced charge.

- **The Cockrell School of Engineering ITG group makes software such as National Instruments Labview and MultiSim, Mathematica available at: Software**
    - Azure for Education can also grant access to Microsoft platforms, servers, and software developer tools for students, faculty and staff.
- **The University of Texas and Mathworks have recently expanded access to the license for Matlab to students (previously only available from the Campus Computer Store)**
    - To install Matlab go to https://mathworks.com and sign up for an account using your @utexas.edu email account.
- BME also licenses Comsol and Solidworks for teaching applications **only**. Contact it-bme@utexas.edu for specific requirements.
