

Saving E-prime Output to Austin Disk

	NeeN
Add the end of a session, you should copy any E-prime output from the desktop to Austin Disk. Add the end of a session, you should copy any E-prime output from the desktop to Austin Disk.	Need to map to Austin Disk? See this page .
For the Early Language Project, the files should be saved under CSD_JBooth>UT Austin>Lab Projects>Early Language Project>Mock Scans>Mock Eprime Output>[subject number]>[session name, as in mock 1a, mock 1b, mock 2a, etc]
