Student Initiative in Medical Simulations (SIMSIG)

Student Leaders

President: Zack Timmons, Class of 2021 - jztimmons@utexas.edu
Vice President: John Harman, Class of 2023 – jmharman@utexas.edu

Goals

• Provide medical simulations where students can practice working as a team to interview and assess patients with critical and/or other clinical conditions rarely encountered in clinical practice; identify appropriate management and treatment plans; and determine safe disposition for patients.
• Increase the procedural competency of medical students for evaluating various patient presentations.
• Provide valuable practical experience for medical students regardless of their intended specialties.
• Reinforce the foundations of the MS1 basic sciences curriculum and the clinical curriculum of MS2, 3, and 4 through real-world simulation cases.
• Represent Dell Medical School at The University of Texas at Austin in state, national, and international SIMS competitions.

Faculty Advisor

Dr. Andrew Kitlowski, MD
